

Stories on YouTube

Here is a list of suitable stories for your child to watch at home and for you to discuss with them- encourage them to make predictions about what might happen next and explain parts of the text to deepen their understanding. The channel these stories are on is noted too as there are many other suitable stories on each channel. If you search for 'Kender Reception' on youtube you will find our channel with different playlists including 'Stories and Songs For Home' with many of these books on. I have also made a playlist of fun songs to dance to! Both of these will be added to in the days to come.
