

Week beginning: 20/04/20

Hello Year 4,

We hope that you are well and safe, and that you have enjoyed your Easter holidays with your families! We are all well and safe, and am looking forward to seeing you when all of this is over.

Unfortunately, it does seem that this lockdown will go on for a few more weeks, and we are sure that you all wish to keep up with your learning. Therefore, we will set some learning activities for you on the website every week.

The activities will last for about 20 minutes each, and you should aim for 2 hours a day, Monday to Friday. An example day might look like this:

20 min Story of the Week/Independent reading

Break

20 min English

Break

20 min maths

Break

20 min Mathletics / Literacy Planet

Break

20 + 20 minutes optional: Science, topic, art...

Break

Other tasks could include story writing, handwriting practise or Hour of Code, for example.

Take a careful look at the tasks for each week. Each subject, such as English, Maths, Science and Topic, will have a document each. Read them carefully so you know your task. Only do what you must for the day - it is important that you take your time and spread out your learning.

Best of luck! See you soon!

Kind regards,

Mr Bengtsson

Miss Haruperi
