# Online Safety

## We use Natterhub for online safety education

[Natterhub](#) is an award-winning, interactive online safety and media literacy platform.

We use Natterhub lessons to prepare children for the online world by teaching the key skills that underpin positive digital citizenship. When pupils are taught to be safe, savvy and kind online, they are less vulnerable and more aware of their digital footprint.

Natterhub badges represent the topics we will cover in our online safety lessons. Pupils are rewarded badge power for demonstrating knowledge and skills attached to a particular badge.

**The Natterhub Badges**

**Chat It** - For communicating well and respectfully with others online
**Balance It** - Understanding the positive and negative aspects of technology
**Feel It** - Knowing why it is important to be empathetic and kind
**Learn It** -Learning how to share content, be creative and inspire others online
**Mind It** - Being mindful of online profiles and the need for honesty and integrity
**Question It** - Knowing how to ask questions, find information and be open-minded
**Secure It** - Ensuring accounts are secure and learning about self protection
**Think It** - Pausing before posting and reflecting on online behaviour
