

THE KENDER TIMES

Welcome to the first published copy of our school paper 'The Kender Times'! All the ideas and writing are our own. We are from years 4, 5 and 6. Please enjoy.

Gate Design

At Kender Primary School we have been working on designing a new entry gate for Faulkner Street. We need YOUR help! If you have a creative or imaginative mindset this mission is just for you. We need you to design a gate for our community. Enter the competition and see your dreams come true! The design must include triangles!

Design Details

Ask your teacher for a competition entry sheet.

The interesting things about art

I really like this painting because I like how they used gold and white rosey glittery paint and you can see that they have made gold squares and mixed colours together. It was painted on a big canvas and there are patterns. The painting makes me feel colourful and happy also curious as well.

I like this second piece of art work because they have tons of really beautiful designs and patterns. The children have used their imagination and creativity. Using Sharpies,

paper, watercolours and paint they have put lots of passion and hard work into it. It was made by Year 2, Year 3, Year 4, Year 5 and Year 6.

Year 6 Almond Class**

Kender Updates

The weather has been drastically changing in the UK and these days the weather is really cold, so when coming to school please wear a coat to prevent yourself

from getting sick or worse.

When coming to school please put on non-slippery shoes so that you can avoid falling on the

frost in the school playground.

Single Use Plastic (SUP)

Plastic you can only use once

The government has issued a ban for Single Use Plastic (SUP) in England. You might be asking 'Why?'. Many single-use plastic items are difficult to recycle. They can be easily avoided, or replaced with reusable products. If the government do ban single use plastic, they will reduce plastic pollution.

The plastic typically used in bottles, bags and food containers contains chemicals, which are associated with negative health effects including cancers in humans and wildlife.

Continued on the next page.....

Single Use Plastic What You Can Do

Hello my name is Rayah and I am here to talk to you about Single Use Plastic. The reason why I care so much about this crisis is because some people just don't care and throw their plastic where ever THEY WANT! It is polluting our oceans and we must stop before it is too late.

- Say NO to plastic cutlery
- Eat at home more
- Use a reusable water bottle
- Don't buy 10p shopping bags

**Written by: Rayah,
Year 5 Rauf Class**

... Continued... **WOW!**

According to estimates, England uses 2.7 billion items of single-use cutlery and 721 million single use plates per year but only 10% are recycled. If 2.7 billion pieces of cutlery were lined up, they would go around the world over eight and a half times!

We need you guys to start recycling. I know you all might not care because you think that it's not your responsibility to do all that 'hard work' but you really need to consider what would happen to the earth if you didn't recycle.

Book Review

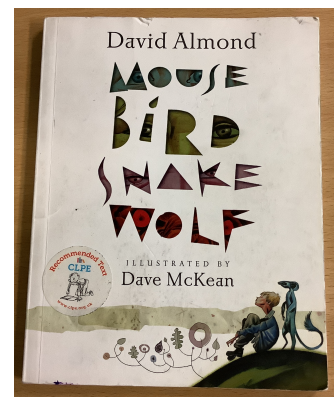

Mouse Bird Snake Wolf - Written by David Almond and Illustrated by Dave McKean

Ever read a book about a strange world? Well... This book called Mouse Bird Snake Wolf is about three children trying to build some creations to fill up empty spaces. They build a little mousey thing, a birdy thing and a snakey thing. Would they dare to perhaps build a wolfy thing... A wolf?

What I liked about the book is that the gods who created the world understand they need to fill up the empty spaces.

What I disliked about the book was that two characters named Harry and Sue made a wolf but it doesn't turn out well for them...

Fission Is Better Than Fossil Fuels

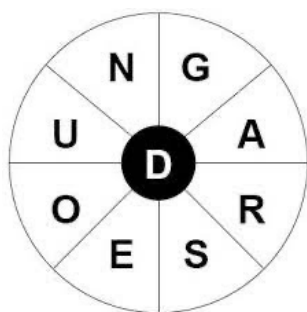

This would be a huge improvement over using fossil fuels. Fission works by splitting atoms, not joining them. Scientists have been working on fission energy for over 60 years. But there are many challenges. Fission reactions produce dangerous radiation and pollution that must be stored safely for thousands of years.

- 6 - Thin papers (7)
- 7 - Dares (anag) (5)
- 11 - Bodily (8)
- 12 - Chats (7)
- 13 - Belief (7)
- 15 - Clothing (7)
- 16 - Great successes (5)
- 19 - Thin cable (4)

Crossword Puzzles

Football News

Cristiano Ronaldo has signed a two-year deal with Saudi Arabian side Al Nassr; the forward was a free agent after his contract at Manchester United was mutually terminated; Ronaldo revealed in November that he turned down a £305m Saudi Arabia move in the summer.

He has gone on to score 451 times for Real Madrid and has more than 800 senior goals overall for club and country.

"I am eager to experience a new football league in a different country. Al Nassr Club's vision is very inspiring." Ronaldo said.
