Dear Keith,

**Confirmation of school category 2018/19**

I am writing to confirm with you that the School Improvement category for your school this academic year is green.

Thank you for returning your self-evaluation which was most helpful in confirming this. As a green school Lewisham Learning will not make a school improvement visit to your school this year.

It is good to note that you are still involved in a peer review process. We would very much welcome any reports from this process being shared with us over the year to help inform our future categorisation process next summer.

We will be sharing the newly devised Coordinated Offer from Lewisham Learning and the Local Authority over the next few weeks. We are keen that you are able to access support from the offer. As a green school I am very keen to hear what more you feel that Lewisham Learning can do to support you through our offer. If you do have any ideas regarding this I would be very happy to hear from you about these.

I look forward to continuing to work with you over the coming year. Do get in touch with me if you would like to discuss anything.

Yours truly,

Michael Roach  
*Interim Director Lewisham Learning*
